

THE MALT	BEST Red X® is a malt that has become synonymous with red-tinted beers. As it can be used at 100% of the grain bill, there is no need to add any other malt. Thanks to its exceptional process reliability and optimal processability, BEST Red X® can be employed to brew consistently fiery beers with intense reddish hues. The malt was designed for a 12°P beer. To retain the red color in stronger beers, some BEST Pilsen Malt should be added to the grain bill due to the higher wort gravity. BEST Red X® complies with the purity guidelines of the German Reinheitsgebot.
USE	Base malt for all red and red-tinted beers, amber-colored beers, red-tinted wheat beers, red-tinted Alt, Red Ales, dark beer with a red tinge and many others.
RATE	100 % of the grainbill
