

Product Specification BEST Melanoidin

BEST Melanoidin

Compared to BEST Melanoidin Light, BEST Melanoidin contains significantly more dextrins as well as aroma- and color-producing melanoidin compounds formed in a more intensive malting process. The malt is thus an excellent basis for particularly strong, dry-full-bodied and dark to chestnut-red beers. The fruity aromas, which are reminiscent of dried fruit, are also more pronounced than in BEST Melanoidin Light.

Flavor: Blackberry, Cherry

The below mentioned figures are subject to harvest-specific variations. All analysis are performed by independent, certified laboratories according to MEBAK „Brew-Technical Analysis Methods“.
